

What we must do TOGETHER to promote a safe environment here at Sun City Country Club:

RESTAURANT

- Masks are required in the clubhouse unless seated at a table enjoying food or drink.
- Please do not move tables on our patio or in our clubhouse as we are practicing sufficient spacing based on governmental recommendations.
- We continue to clean and sanitize all common-touch surfaces and areas.
- Occupancy determined by local government requirements.

GOLF

- The cups have been modified to grab your golf ball easily. If touching the flagstick, please use gloved-hand.
- When using a ball washer, please use gloved-hand.
- Golf carts are being cleaned thoroughly after use. Common touch items in cart are being sanitized.
- On course water fountains have been temporarily removed.
- Passenger dividers have been installed in golf cars.

Please continue to be mindful of social-distancing and help us to deliver a safe and enjoyable environment for all. We encourage you to let us know if you have any ideas or questions about the effectiveness of our operational changes and safety of Sun City Country Club.
